

NEW ADDITION TO THE COMPANY'S CAPABILITIES

E170/175, 190/195

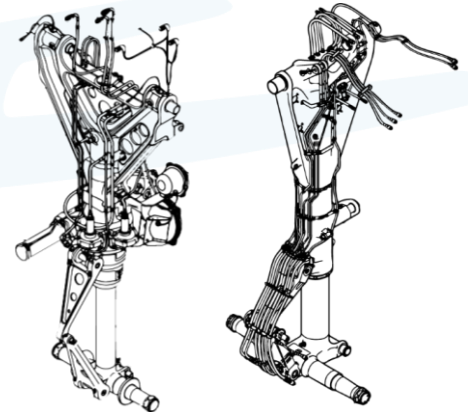

Toronto, ON, March 3, 2022 — *Aviatechnik Corporation* today announced an addition of a new aircraft type capability – **E170/175/190/195**.

The company has concluded a **License & GTA Agreement** with *Liebherr-Aerospace* and the **GTU Agreement** with *Embraer S.A* for Landing Gear maintenance services support of the EMB170/190 family aircraft in addition to the existing - ERJ 135/145 (Legacy 600/650).

With the agreement, Aviatechnik becomes one of the few companies providing maintenance services for the E170/190 landing gears globally.

The new agreement benefits *Aviatechnik* and its clients by providing them with access to the following:

- Technical Publications
- Spares Procurements (Preferred Prices)
- Technical Support
- Engineering Support
- Traceability Documentation Support
- Liebherr Vendor Workspace
- E-track Services (FlyEmbraer portal)

Aviatechnik Corporation is now fully capable of supporting Embraer E-jets operators and aircraft maintenance providers with all levels of scheduled and non-scheduled landing gear maintenance. Landing gear services include:

- Test/Inspection
- Recertification
- Repair
- 144M Overhaul (complete restoration)

ABOUT COMPANY
