

AVIATECHNIK

CORPORATION

Landing Gear MRO

SAFETY IN THE SKY
STARTS ON THE GROUND

Aviatechnik Corporation is a TCCA, EASA, ANAC, CAAC, and CAAB Approved MRO based in Toronto, Canada, with the capacity to support customers worldwide. Our company specializes in Landing Gear Repair and Overhaul, as well as Lease and Exchange services for Regional and Business aviation markets.

We bring over 40 years of experience in the aerospace industry providing our customers with strong expertise, excellent customer support and the highest level of reliability.

Our main goal is to offer the most cost-effective solutions while maintaining the highest quality that you can rely on.

Aviatechnik performs Landing Gear overhaul using the latest tooling and technical data to guarantee a quality product is returned to service. We use OEM-approved repairs and replacement parts to ensure conformity to type certificate.

We pride ourselves in providing drastic cost savings through parts salvaging solutions, such as performing various machining repair schemes.

By implementing our latest state-of-art equipment, **Aviatechnik** assures quality and cost-efficiency of the repair process.

Our Capabilities include the following:

- Component Repair, Overhaul and Modification
- Lease & Exchange Solutions
- Engineering Services
- Component Supply
- Logistics Support

Customer Benefits:

- Salvage Repair Scheme through Engineering Concession
- Extensive Inventory of Spare Parts and Rotables
- Airworthiness Data Management
- OEM Approved Repair Design
- Outstanding Quality & TAT
- Life Cycle Support
- FOC AOG Support

Landing Gear MRO

Aviatechnik Corporation has extensive in-house capabilities for the maintenance of Landing Gear components. From inspection to complete overhaul services, we cover the following aircraft types:
